

ACE BATTLE POLAND

PUBLIC REGULATIONS OF THE NATIONAL INDIVIDUAL RATING MILE

ACE BATTLE RUN (ONE MILE QUALIFICATION POLAND)

These Regulations establish the procedure for conducting the individual qualification competition and are its primary document. The website poland.acebattle.run reproduces its provisions and current operational information.

Parameter	Description
Initiator	Ace Battle Association, Luxembourg (NPO)
Name	Ace Battle Run (One Mile Qualification) - Individual Rating, Poland
Organizer	Ace Battle Poland LTD
Event Director	Vitalii Bikhunov
Status and Stage	Individual qualifying rating competition
Format	Individual 1-mile races
Goal	Determining the individual running level of participants to compile a rating and subsequently form teams of comparable levels
Distance	1 mile (1,609.344 m)
Venue, Address	Stadion Podskarbińska, OSiR Praga-Południe, ul. Wojciecha Chrzanowskiego 23, 04-394 Warszawa, Poland
Date	June 27-2026, August 1, 8, 15, 22, 29- 2026
Event Time	09:00-12:00, CEST (UTC+2) 17:30-20:00
Race Time	10:00-11:30, 18:30-19:30 CEST (UTC+2)
Participant Categories	Men and Women

Age	Participants who have reached the age of 18+ are allowed
Entry Fee	Free
Timekeeping	The official timekeeping system for this event is Race Result equipment
Number of Participants	100

2. REGISTRATION AND PARTICIPATION CONFIRMATION

2.1. Mandatory Registration. Every participant in the qualifying races must register on the poland.acebattle.run website and personally Check-in for the event. On the day of the competition, applications for participation are accepted as an exception from 09:00 to 09:30, subject to technical feasibility.

2.2. Confirmation. Participation is considered confirmed after registration on the website and assignment of the Confirmed status with a confirmed QR code. A preliminary application in itself does not grant admission.

2.4. Check-in. From 09:00 to 09:30, the participant presents an identity document, confirms profile data, and receives a starting number.

2.5. Registration Closure. At 09:30, registration and Check-in are closed. New applications are not accepted. A pre-registered participant who has not completed Check-in receives a DNS status and is not allowed to start.

2.6. Admission. Persons who have reached the age of 18 and accepted the rules in their personal account on the website are allowed to participate.

4. REGULATIONS ON RACE DAY

Time	Action	Status
08:30	Opening of the venue for staff; launch of the secretariat, timekeeping, and medical post	Technical readiness
09:00	Opening of registration for race participants and Check-in	Admission begins
09:00-09:30	Identity and profile completeness check,	Admission to heat formation

	issuance of a starting number, Registration in the Timekeeping system	
09:40	Closure of registration and Check-in	New applications not accepted
09:45-09.50	Data verification and heat formation taking into account the declared pace and participant preferences	Actual rosters and number of heats
09:50-09:55	Formation of the start list and mandatory briefing	Participant knows their slot and rules
09:55	Assembly of the first heat in the Call Room; (Distribution of timing chips) other participants continue warming up	Pre-start control
10:00	First start; subsequent starts every 15 minutes according to the approved schedule	Individual timekeeping
after each heat	Collection of timekeeping system chips. Publication of preliminary results no later than 10 minutes after the actual finish	Start of the 15--minute protest period
after the last heat	End of protest periods and publication of undisputed Official Results	Under Review results are published after a decision
in case of delay	All subsequent starts, protest periods, and publications	Single actual timing
scheduled until 12:30	Publication of Official Results	Participants may leave the venue

5. STARTING SLOTS

Heat	Call Room Assembly	Enter Track	Start	Note
1	09:50	09:57	10:00	first
2	10:05	10:12	10:15	per schedule

Subsequent heats — every 15 minutes according to the schedule, assembly 10 minutes prior, readiness 3 minutes prior. The number of heats and participants in each heat is determined by the Organizing Committee after the Check-in closes, taking into account the actual number of participants, technical capabilities of timekeeping, safety, and venue usage time.

The participants' preference to start together with family, friends, or another group is considered as a Priority, provided the group declares they can complete a mile within the control time and their joint start does not pose a safety threat.

If there is no such preference, participants are distributed as evenly as possible based on the declared or previously confirmed time: 6:00–7:00, 7:00–9:00, and 9:00–12:00 min/mile. Mixed-age and mixed-gender heats are allowed.

A joint start does not create a team: each participant receives an individual result, and the rating and awards are conducted separately for men and women. The final rosters and the number of heats are fixed in the start list after Check-in.

The interval between starts is 15 minutes. 10 minutes before the start, participants gather in the Call Room, and 3 minutes before, they must be ready at the entrance to the Track.

Entering the track is allowed only on the judge's command after the complete clearing of the distance and the finish zone. Participants of the next heat must not cross the track or interfere with the current heat.

The control time for completing a mile is 12:00. A participant who has not completed the distance within the control time must stop the race upon the judge's command, safely leave the track, and receive a DNF.

The next heat is assembled simultaneously with the previous one. A new start is given only after the track is cleared, timekeeping chips are checked, and the starter gives confirmation.

6. RACE RULES AND TIMEKEEPING

The start is given from a standing position from the common curved one-mile starting line. After the start, it is permitted to take the inner position without pushing, blocking, or creating a dangerous situation. Shortening the distance, outside assistance, and using someone else's starting number are prohibited. The participant responsible for a false start will be disqualified.

The official timekeeping of this competition is carried out by the Race Result system. Each participant is identified by their starting number and receives an individual result and a position

in the rating. Manual time recording, the judge's finish order, and video recording serve as backups. In case of discrepancies, the chief judge makes a decision based on the totality of available data: Full Name, starting number, time, placement in the men's or women's category, and sports status.

7. RESULTS, PROTESTS, AND RATING

- **FINISHED** — The participant completed the full distance; the result is confirmed.
- **DNS** — Did Not Start, including the absence of Check-in before 09:30.
- **DNF** — Did Not Finish.
- **DSQ** — Disqualified; the protocol specifies the rule and the judge's decision.

The preliminary result of each heat is published no later than 10 minutes after its actual finish. A protest is filed within 30 minutes after publication. In case of a program delay, all related deadlines are calculated from the actual time of the corresponding action.

The subject of a protest can only be: an error in participant or number identification; an error in the Race Result Chip time or finish order; incorrect lap counting; interference, pushing, blocking, or shortening the distance; incorrect DNS, DNF, or DSQ status; category error; violation of the starting procedure that could affect the result.

Dissatisfaction with the recorded time or place taken, as well as a request to move the participant higher without indicating a specific error or violation, are not subjects for a protest.

A protest is filed by the participant or their representative via the feedback form in the participant's personal account, specifying the heat number, starting number, disputed action or indicator, and the required correction. A protest does not stop the program. If the available data is sufficient, the chief judge and the secretary review it during the next heat.

If timekeeping data, video recordings, or other technical materials are required, the disputed result receives the status "Under Review". Undisputed results are published without delay; the disputed result and rating are corrected after a decision. All protests and appeals must be resolved before the final rating and awards are approved.

The decision on the protest is communicated to the applicant. An appeal is filed within 15 minutes after receiving the decision and is considered by a commission of three persons who did not participate in the initial decision. An appeal does not stop the program and affects only the disputed result and the positions depending on it.

The individual rating takes into account the participant's best official result for the qualification period. In case of a tie, the second best result is considered, and in its absence or repeated equality, the earlier achievement of the best time. The result determines the individual level.

8. CATEGORIES AND PRIZE FUND

The competition is held in two categories: men and women. Age subcategories are not applied. The prize fund for the qualification cycle is 5,000 PLN: 2,500 PLN in each category.

Category	1st Place	2nd Place	3rd Place	Total
----------	-----------	-----------	-----------	-------

Men	1,250 PLN	750 PLN	500 PLN	2,500 PLN
Women	1,250 PLN	750 PLN	500 PLN	2,500 PLN

The awards ceremony will be held on August 29, 2026, based on the final rating grounded on the participant's best official result for the qualification period. The race on August 1 does not provide for a separate awards ceremony.

9. SAFETY AND MEDICAL ASSISTANCE

The medical post operates from 08:30 until the last participant leaves. The venue is provided with an AED, a first-aid kit, communication with the 112 emergency service, water, and a recovery zone.

A participant is obliged to stop the race upon the demand of a medical worker. The medical director has the right to withdraw a participant for health reasons; the event director and the chief judge have the right to stop or reschedule the starts in case of a security threat.

10. MANAGEMENT AND PUBLICATION

The document owner is Ace Battle Run Poland. Event Director Vitalii Bikhunov approves changes and is responsible for the relevance of the regulations.

The chief judge verifies the sports rules and results. The platform and data coordinator manages registration, start lists, and Official Results.

The communications coordinator ensures the website complies with these regulations and publishes the registration form, start list, actual schedule, and results.

11. FINAL PROVISIONS

Issues not regulated by these Regulations are resolved by the event director and the chief judge, taking into account safety requirements and applicable law. Changes are approved by the event director and published on the website.
